

The Miessakit Association's Vieraasta Veljeksi project and SEMO jointly organize

A joint group for Somali and Finnish men

The group meets every Friday and Saturday at 7 – 9 pm at
Meri-Rastilan tie 6.

We read together news in plain language and discuss current topics. Now and then we will also take a look at the society and history in plain language. Learning about Finland and the rest of the world helps us improve our vocabulary.

We also have discussion exercises in Finnish. The exercises cover situations that every one of us is likely to get into, such as visiting a health center or a bank or traveling. The program also includes trips and excursions.

Coffee, tea and snacks served.

The group is guided by Ali Hussein and Heikki Kerkkänen.
